ABOUT ME

I am a dedicated professional with a history of meeting company goals utilizing consistent and organized practices. Skilled in working under pressure and adapting to new situations and challenges to best enhance the organizational brand.

WORK EXPERIENCE

• Software Engineer at Enigmatix (Pvt) Ltd

Front end developer

- Proved successful working within tight deadlines and a fast-paced atmosphere Resolved problems, improved operations, and provided exceptional service Improved the user experience of React JS applications by designing and implementing intuitive and user-friendly interfaces Participated in continuous learning and skill development to stay up-to-date with the latest technologies and trends in the React JS ecosystem.

• OMS PROJECT DETAIL

<https://www.oms.enigmatix.co/login>

01-07-2023 - 05-03-2024

- In the past six months, I have been working on the OMX project, where I successfully built two key modules, asset and Onboarding module and addressed several bugs related to other modules. During this project, I gained valuable experience in strong debugging techniques, ensuring the smooth functionality of the system. Additionally, I developed a deeper understanding of effective client communication, which helped in gathering clear requirements and delivering user-friendly solutions.
- This project has enhanced my skills in problem-solving, collaboration with cross-functional teams, and delivering results under tight deadlines. I also focused on optimizing code for better performance and contributed to improving the overall user experience. My ability to adapt quickly to project needs, along with a proactive approach to tackling challenges, has allowed me to make meaningful contributions to the team.

• LINKGRAPH PROJECT DETAIL

<https://dashboard.linkgraph.com/>

10-03-2024 - 01-02-2025

- I have been working with LinkGraph , primarily focusing on various SEO-related projects aimed at improving website rankings. During this time, I have contributed to several modules, resolving bug fixes and implementing changes based on evolving requirements. Specifically, I have worked extensively on the Content Explorer and Site Explorer sections, addressing UI issues and delivering solutions within tight deadlines.
- LinkGraph.com is a widely-used platform for SEO optimization, and I am proud to have been a part of its development and improvement.

• THENOVAPLUS PROJECT DETAIL

<https://nova-frontend-v2.vercel.app/>

01-02-2025 - 29-03-2026

- Developed a high-performance e-commerce advertising platform and business directory designed to connect pan-African businesses with global consumers.
- Built a scalable frontend architecture using React.js and Tailwind CSS to ensure seamless navigation across complex business listings and product catalogs.
- Implemented responsive design patterns to provide a consistent user experience for customers across diverse geographical regions.
- Collaborated on integrating innovative digital advertising features to enhance business visibility within the directory.

SKILLS SET:

Front-End Developer with Expertise in Responsive Design and Version Control

I bring a comprehensive skill set and experience in modern web development, specializing in creating user-friendly responsive interfaces that ensure seamless user experiences across all devices. My key competencies include:

1. Expertise in Responsive Design

Responsive design ensures optimal viewing and interaction across all devices by using fluid grids, flexible images, CSS media queries.

2. Proficient in Debugging and Problem Solving

Solid experience with debugging techniques and troubleshooting to identify, isolate, and resolve bugs efficiently, ensuring smooth functionality and performance.

3. Version Control with Git, GitHub, and GitLab

Extensive experience in using Git for version control, collaborating on code with GitHub and GitLab for effective code management, branch handling, and smooth mergers during development cycles.

4. Technical Skill Set

Front-end technologies: HTML, CSS, JavaScript, and Bootstrap
Advanced styling frameworks: Tailwind CSS, Ant Design (AntD), Material-UI
State management: Redux Toolkit, MobX, MobX State Tree
Version control: Git, GitHub, GitLab
Frameworks and libraries: ReactJS
Strong emphasis on creating clean, responsive designs and maintaining high code quality.

This refined version is professional and showcases your technical skills while emphasizing your ability to deliver results effectively.
